Mississauga, ON | 437-559-9253 | tahershabbiri@gmail.com | taherms.github.io

PROFESSIONAL SUMMARY

With over eight years of experience in Quality Assurance, Quality Control, and Analysis of software applications, I bring a robust background in both Desktop and Web Application Testing. My extensive expertise spans across Manual and Automation Testing methodologies, ensuring high-quality software deliverables.

EXPERIENCE

IT Analyst

Tata Consultancy Services Ltd | Toronto, ON

Jan 2017 - Present

- Manage all testing related activities like management of bugs using tools like Bugzilla and Jira
- Collaborate with product managers and developers to understand product requirements and design.
- Continuously update self and team for learning different applications and its internal processes
- Consistent on zero post deployment bugs for more than 95% deployments.
- Developing the automation testing using Python, RobotFramework and selenium.
- Recognized for consistently getting involved in the testing for different applications along with different teams
- Have understanding on different types of transaction (Swift, non-swift, LCTR, UTR) and submitting transactions to FINTRAC.
- Develop Automated Test scripts for Quality Assurance of product using Testcomplete and autoit for desktop based application and selenium with java for web based testing
- Successful performance testing for website and API's using JMeter and Postman
- Automate or ease the task requires human efforts using java and batch
- Work with Ops and testing team to create automation bridge for performance testing using CICD tools and Jmeter

Intern as Software Developer

Tata Institute of Fundamental Research (TIFR) | Mumbai, India

Jul 2015 – Sep 2016

- I was qualified and selected for Internship at TIFR for developing the project based on Hadoop and web technologies along with bash scripts for automating
- My roles were mainly at the backend to run scheduled scripts and manage the data in Hadoop- Hive ecosystem and query the database for data to display on webpage.
- Also, I had planned an algorithm for dealing with historic and real time data

EDUCATION

Bachelor of Engineering (Information Technology)

Mumbai University | Mumbai, India | Aug 2012 – May 2016

CGPA: 7.64

HSC

MH Saboo Siddik Jr College | Mumbai, India | Jul 2011 – Jun 2012

Percentage: 79 %

SSC

Saify High School | Mumbai, India | Aug 2012 – May 2016

Percentage: 75.27 %

SKILLS

Selenium	Robotframework
JIRA	Jenkins
Java	Sonarqube
Python	Batch scripting
Bugzilla	SQL
QTest	Hive
Jmeter	Oracle
GIT	TestComplete
SVN	MySQL
SQL	PHP
Microsoft Office	HTML & CSS

PROFESSIONAL CREDENTIALS

- Microsoft Azure AZ-900

VOLUNTEER WORK

Core Management

Anjuman E Fakhri | Mississauga, ON

Apr 2023 - Present

- Managing of Teachers and Students
- Managing of IT related activities
- Organizing and maintaining of Google classrooms

AWARDS AND HONOURS

Appreciation From RBC Client | 2023

- Appreciated for zero defects post deployment for more than 5 continuous deployments.

Appreciation From RBC Client | 2024

- Appreciated for going out of working hours for completing the testing for critical deadline application for prod deployments.

Star of the Month Award in TCS | 2024

- Achieved Star of the Month award in TCS.
